	<p>The price you pay for electricity will vary according to the pre-defined formula set forth in Addendum B to your agreement: The technical calculation of the price per kWh is determined as follows:</p> <p>Price per kWh = [(Day Ahead SPP for the Load Zone + Retail Adder + Energy Usage based TDU Charges + Energy Usage-based management fee, if any)].</p> <p>In addition, you will pay the Monthly Base Charge, if any + TDU Delivery Charges + Pass-Through Charges ("Component Amount"). The Component Amount plus the total amount due for electricity (i.e., Price per kWh * Energy Usage) is then multiplied by [PUCT Assesment Fee / Energy Usage]. Your monthly charge will be equal to: [the resulting amount + Component Amount + Taxes].</p> <p>You may obtain information on the SPP at http://www.ercot.com/mktinfo/dam/, or call the Gexa Energy sales team at 866-867-7321.</p> <table><tr><td>SPP Charge</td><td>Day Ahead Load Zone SPP (\$/MWh)</td></tr><tr><td>Retail Adder</td><td>\$30/MWh</td></tr><tr><td>Base Charge</td><td>\$5.72 per month</td></tr><tr><td>TDU Charges</td><td>\$3.19 per month</td></tr><tr><td>TDU Charges</td><td>\$11.1518 per KW</td></tr><tr><td>TDU Charges</td><td>\$0.0368 per kWh</td></tr></table> <p>You may be subject to a special charge from your transmission and distribution utility (TDU) that is not included in the total average price for electric service. If you are subject to a TDU special charge, you may contact Sharyland Utilities LP at 866-354-3335 for more information regarding the price and applicability of the charge.</p>					SPP Charge	Day Ahead Load Zone SPP (\$/MWh)	Retail Adder	\$30/MWh	Base Charge	\$5.72 per month	TDU Charges	\$3.19 per month	TDU Charges	\$11.1518 per KW	TDU Charges
